

#407MCJ1

Manual Citrus Juicer

SAFETY

Juicer should only be operated by trained individuals. Be sure to read the operation and cleaning guides before using.

CAUTION: KEEP HANDS CLEAR OF JUICING FUNNEL WHEN IN USE TO AVOID INJURY RISK

OPERATION

1. Position the juicer on a flat, dry countertop.
2. Lock the bowl and straining funnel in place.
3. Place a container underneath the funnel to receive the juice.
4. Place halved fruit on reamer and hold in place until the push block is in contact with the fruit. **REMOVE HAND BEFORE APPLYING DOWNWARD PRESSURE**
5. Press the handle down to extract juice.

CLEANING

1. Remove reamer and strainer bowl from base.
2. Wash with mild soap (such as Noble Chemical's 147SUNBRIGHT) and warm water.
3. Wipe the juicer with a damp soft cloth and sanitizer (such as Noble Chemical's 147QUIKSAN).
4. Allow parts to dry and reassemble.
