

Description

- ASFT Floor Troughs are 14-gauge type 304 stainless steel. Horizontal corners are coved and the trough is integrally pitched toward a 6½" waste outlet with a stainless steel beehive strainer and a 4" OD x 3" long tailpiece.
- Anti-Spill features are built into the trough, which is 6" deep. Not a splash guard.
- Stock and custom sizes available with short lead times.
- Any style grating may be used.

Front View

Drain

- Trough is integrally pitched towards a 6½" diameter drain
- 4" O.D. x 3" long tailpiece - custom sizes available
- 6" high - custom lengths available

- Removable basket strainer with handle
- Radius anti-spill feature directs splashing water to inside of trough
- Pitched towards drain so that water exits the trough properly
