

AUTOMATIC OR MANUAL?

Although the no-touch restroom is quickly becoming industry standard, automatic soap dispensers are not a universal solution. Some projects may benefit from manual operation.

Automatic Operation

Benefits

- Enhances hygiene, reduces cross-contamination
- Controls soap usage with portion control
- Creates a seamless, modern experience

Ideal Applications

- Prestige or high-end buildings
- Low to medium traffic facilities
- Washrooms with other touch-free accessories, especially faucets

Manual Operation

Benefits

- No batteries or power source required
- More mounting options

Ideal Applications

- Buildings with limited janitorial staff or resources
- High-traffic facilities
- Projects with stringent capital budgets
