DILUTION AT HAND EXTREME

Features and Benefits

- Sleek design and enhanced color scheme to present modern appearance for end user accounts
- New snap-together selector valve design reduces number of components from 14 to 5, and eliminates all metal components resulting in a maintenance free selector
- New selector valve design incorporates a built-in check valve which eliminates the need for individual check valves, reducing dispenser cost, while providing a neater dispensing installation
- 1 gallon-per-minute flow control disc improves dispensing accuracy when filling spray bottles, as compared to other dispensing systems, especially with 1/2 ounce and 1/4 ounce per gallon sanitizer and disinfectant products
- 2 liter and 1 gallon locking enclosures available to meet today's flexible packaging options
- Modular design allows any number of cabinets be coupled together
- Built-in hinges improve cabinet durability
- Molded drip tray snaps into locking enclosure

Combined with the already existing Dilution at Hand benefits

- Remote fill option for easy filling of buckets and scrubbers when location flexibility is required
- One-hand bottle fill allowing operator more flexibility when filling spray bottles
- Action Gap and Air Gap backflow options to meet local plumbing agency requirements

All models above include DEMA's Action Gap backflow prevention.

To include DEMA's Air Gap proportioner replace GAP with AG (Example: 831AG-Q1G)

S = Single locking enclosure	1 gallon per minute (gpm) = 4 liters per minute
D = Dual (2) locking enclosures	4 gallons per minute (gpm) = 16 liters per minute
Q = Quad (4) locking enclosures	Part# 89-17-1 Add-on 1 gallon/5 liter locking enclosure
1G = 1 gallon or 5 liter bottle	Part# 89-16-1 Add-on 2 liter locking enclosure
2L = 2 liter bottle	

Notes: Additional models are available that are not shown above. Contact DEMA customer service or your regional sales manager to discuss the many Extreme options available.

Typical Application:

1 gpm proportioner to fill spray bottles and other small containers.

4 gpm proportioner to fill buckets, sinks, auto-scrubbers and other large reservoirs.

Dilution at Hand Extreme Rack Options

Complete range of Dilution at Hand Extreme models available on single and 4 station locking wire rack

These dispensers offer a complete system keeping chemical containers off the ground in a safe manner and a drip tray mounted to the rack. Single and four station racks are available. Custom racks with various stations and sizes can be made if minimum lot sizes are met.
