

LES VERGERS
boiron®

Kumquat

Let's cultivate fruit excellence

Frozen fruit puree

KUMQUAT

without added sugar*

Origin and harvesting

In sun-drenched **Andalusia**, close to the Strait of Gibraltar, you'll find Los Alcornocales Natural Park. It's here, in this mountainous region of southern Spain, that Les vergers Boiron sources **Nagami kumquats**. These small, oval-shaped citrus fruits are grown on a family-run farm that specializes in kumquats. **Certified organic**, all the fruit harvested here are therefore guaranteed to be free **from traces of pesticides** – an essential criterion for Les vergers Boiron, which processes the whole fruits, including the peel, renowned for its richness of its flavor. They kumquats are picked by hand from February to April.

Product benefits

- ✓ Fruit grown on a **Certified Organic family-run farm** in Andalusia, Spain

MARKET

A POPULAR FLAVOR

TOP 5

The **fifth most popular flavor out of 24** tested by 149 French pastry chefs in 2024. Heard from our partner chefs: "There's a lot to be said for the kumquat puree, because it's difficult to work with the whole fruit. The **thick texture** of this puree also makes it easy to use and **distinguishes** it from other citrus fruit purees, which tend to look more like a juice."

CULTIVATION

NICHE PRODUCTION

Usually, citriculturists grow this fruit alongside other citrus fruits. Therefore, there are very few farms dedicated to growing solely kumquats. To ensure both the **quality and availability** of this raw material, Les vergers Boiron works with a **producer who specializes in kumquat production!**

Product information

Packaging:

- 1 kg tub
- Packing: 6 kg carton
- Product code: AKU0C6AA0
- EAN code: 3389133005258

Ingredients:

100% Kumquat

*Contains naturally occurring sugars

Flavor combinations

Mango

Strawberry

Pear

Blackcurrant

Quince
