

Serving up cultural food trends

While hot pots have been an essential part of the Chinese dining culture for centuries, this unique concept has become a fast-growing restaurant food trend. The large hot pot is divided into 2-quart sections, allowing for two different broths to be simmering in the same vessel, while the small 1.6 quart hot pot is the perfect size for a small tabletop. Both sizes can be used with optional heat element bases or on induction cooking surfaces for the operators convenience.
