

High-speed Digitals

The same innovative technology incorporated in our popular thermocouple instruments, used by the most sophisticated restaurant chains in the world, is also available in select digital thermometers. With settings stored in a non-volatile memory chip, field adjustment has become a thing of the past. Cooper-Atkins is committed to ensuring the accuracy of our products that they are guaranteed for life. Look for the  logo on Cooper-Atkins' products and ask your local representative for more details.

DFP450W
Digital Pocket Test
with Temperature Alarm

DPP400W
Pen-style
Digital Pocket Test

DPP800W MAX
Digital
Pocket Test

The tip diameter is 0.046" (1.19 mm) where the thermistor sensor is located. This stem thickness complies with the FDA Food Code's recommended Guidelines.

TTM41
Coolit-Rite™ Cooling Validator
monitors cooling time and
temperature to ensure
HACCP compliance
