

HIVIS CATALOG 2024

RefrigilWear®

HIGH-VISIBILITY

RefrigiWear® offers a wide range of high-visibility (HiVis) garments as well as handwear, footwear and headwear with HiVis accents because we know that absolutely nothing comes before the safety of your workforce. Many stock garments can also be customized to include reflective tape. Please contact our Customer Service Team for customized garment requests at 800.645.3744.

The ANSI classification of a garment is determined by:

The amount of background material (HiVis Orange or Lime) plus the amount of reflective material and its placement.

HIVIS WATERPROOF BOMBER JACKET | PAGE 9

ANSI STANDARDS

The American National Standards Institute (ANSI) sets different safety standards that are enforced by OSHA. Different jobs require different minimum standards to be safe.

TYPES

There are three types of ANSI HiVis gear:

TYPE O – OFF-ROAD

TYPE R – ROADWAY

TYPE P – PUBLIC SAFETY

Each type offers specific features to meet the safety concerns of different jobs.

CLASSES

There are four classes of ANSI gear:

CLASS 1 **CLASS 2** **CLASS 3**

CLASS E (SUPPLEMENTAL)

Each Class increases the amount of HiVis material and reflective tape on the garment. Class E are pants or bib overalls that can be added to an outfit to raise the Class rating.

CSA CERTIFIED

To be CSA certified, the garment needs to have an X shape of reflective tape on the back to indicate which direction the wearer is facing.

HIGH-VISIBILITY EMBROIDERY EMBLEMS

Add a professional look to your HiVis safety gear with HiVis emblems. These patches can be used to add names, logos and more to your HiVis garments without compromising safety. An alternative to direct embroidery, which can cover reflective tape, emblems allow any area of the garment to be customized.

WHITE TAPE

ADD REFLECTIVE TAPE

3M® Scotchlite® Reflective Tape can be added to any RefrigiWear® stock garment on front, back, sleeves or trousers.

FOR AREAS WHERE YOUR WORKERS NEED TO BE SEEN, BUT DO NOT REQUIRE ANSI-RATED GARMENTS, CHOOSE IRON-TUFF HIVIS FABRIC.

IRON-TUFF® HIVIS FABRIC

All RefrigiWear® Iron-Tuff® styles can be customized in HiVis Orange or HiVis Lime fabrics.

IRON-TUFF® HIVIS
LIME FABRIC

IRON-TUFF® HIVIS
ORANGE FABRIC

OFFERED IN REFLECTIVE SILVER, HIVIS LIME AND HIVIS ORANGE

Reflective Silver patches can be placed over tape without reducing reflectivity requirements. Border thread matching ensures a polished, professional look for the emblems. Letters can be embroidered in a range of colors.

HIGH-VISIBILITY STAY SEEN & STAY SAFE

When your job combines extreme low temps with low visibility, you need the added safety of HiVis that protects down to -50°F and -60°F. Our HiVis Extreme and Iron-Tuff® gear is ANSI certified and ready to work, with durability and visibility for the toughest jobs.

INNOVATIVE SOLUTIONS

Keypads and touchscreens are common now, but when you have to remove your gloves to use them, it defeats the purpose of even wearing them. Gloves with Key-Rite nibs make it easy to use devices without removing your gloves.

LEARN MORE AT PRO.REFRIGIWEAR.COM/NIBS

KEY-RITE NIB FOR KEYPADS

Exclusive Key-Rite Nibs from RefrigiWear® work on keypads and pressure sensitive screens to help employees stay productive and protected. Nibs can be placed on any and as many fingers as needed.

HIVIS HEADWEAR

In the cold, headwear can't be an afterthought. Body heat can quickly be lost through your head and your ears are especially susceptible to frostbite. Selecting headwear can reflect personal preferences, the type of job being done and, especially, the environment.

KEEP WARM WHILE WEARING YOUR HARD HAT

See items 0067, 0068, 0061, 0045SKL and 0044 for headwear that fits great with hard hats.

HOW TO MEASURE FOR YOUR PERFECT REFRIGIWEAR® FIT

Follow these simple tips to measure for garments and gloves:

- Use a flexible measuring tape to measure against the skin or over a single layer of clothing.
- RefrigiWear® garments should fit loosely, so round all measurements up to the nearest inch.
- Your waist measurement is the most important factor in selecting your size. If your measurements fall between sizes, choose the larger size.

CHEST

With arms relaxed at your sides, measure around your chest at the armpits, over the fullest part of your chest or bust and shoulder blades, keeping the tape parallel to the floor.

WAIST

Measure around the natural waistline, below the last rib and above the hip bones.

SLEEVE

Extend your arm straight out to the side, then measure from the center of the back to the wrist.

INSEAM

Measure from the center of the crotch seam to the top of the shoe.

GLOVE

Measure around the widest part of the dominant hand (right if you are right-handed, left if you are left-handed), just below the knuckles.

MEN'S SIZES	XS	S	M	L	XL	2XL	3XL	4XL	5XL
CHEST	30 – 32"	34 – 36"	38 – 40"	42 – 44"	46 – 48"	50 – 52"	54 – 56"	58 – 60"	62 – 64"
WAIST	26"	28 – 30"	32 – 34"	36 – 38"	40 – 42"	44 – 46"	48 – 50"	52 – 54"	56 – 58"
SLEEVE Measure across back	31"	32"	33"	34"	35"	36"	37"	38"	39"
INSEAM	29"	29.5"	30"	30.5"	31"	31.5"	32"	32.5"	33"

This size chart is based on Regulars (5'7"-6'). Tall sizes (6'1"-6'5") are approximately 2" longer in sleeves, inseam and torso. Tall is not available in size small. Short sizes (5'5"-6") are approximately 2" shorter in sleeves, inseam and torso.

WOMEN'S SIZES	XS	S	M	L	XL	2XL	3XL
BUST	32 – 33"	34 – 36"	37 – 39"	40 – 43"	44 – 47"	48 – 51"	52 – 55"
WAIST	24 – 26"	27 – 29"	30 – 32"	33 – 35"	36 – 38"	39 – 41"	42 – 45"
HIPS	34 – 36"	37 – 39"	40 – 42"	43 – 45"	46 – 49"	50 – 53"	54 – 57"

Returns

RETURNS

To return any product, call our Customer Service Team at 800-645-3744. To read more about our return process, visit pro.refrigiwear.com/returns

Repairs

REPAIRS

Nothing is more frustrating than an issue with your favorite gear. That is why we offer in-house repair services to get your gear back in action. Please allow two weeks (not including shipping) for your repair to be completed.

Please contact Customer Service at **800-645-3744** or email keepmewarm@refrigiwear.com to process your repair. You will be given an RMA number and form to use for shipping. The RMA number and form (showing bar code) **MUST** be attached to the outside of the box for your repair to be processed. Boxes without RMA form attached will not be processed.

Laundry

LAUNDRY

Have a big pile of dirty protective gear and nowhere to wash it? Let us handle it for you! RefrigiWear® offers laundering services for garments. Cleaning services usually take 3 days, not including shipping time.

IN-HOUSE EMBROIDERY

Customize your order with logos and names. All embroidery is done at our factory in Dahlonega, GA. We control the entire embroidery process—from digitizing all the way through packaging—to ensure superior quality and timeliness of your order.

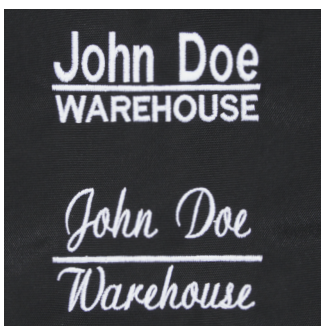

DIRECT EMBROIDERY

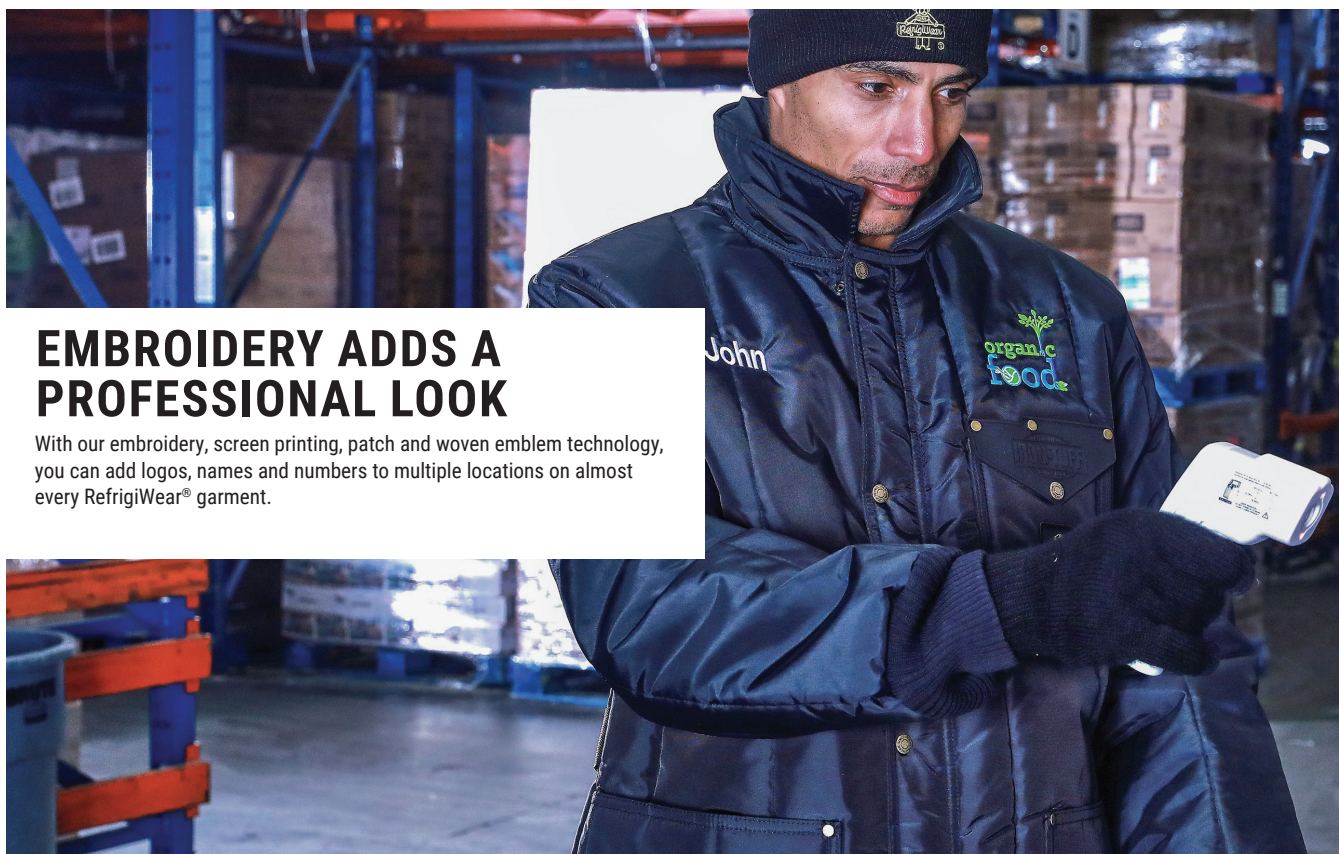

- COMPANY LOGOS
- JOB TITLES
- NAMES
- NUMBERS
- SPECIAL EVENTS
- AWARDS

Direct embroidery provides a premium appearance and the most professional look. This is our most requested option. With Pantone® color matching, there are thousands of colors to choose so your embroidery will match your logo and brand exactly.

Direct embroidery remains intact for the life of the garment, and threads are color-fast for a significant length of time with typical wash and wear.

Visit pro.refrigiwear.com/embroidery to learn more.

EMBROIDERY ADDS A PROFESSIONAL LOOK

With our embroidery, screen printing, patch and woven emblem technology, you can add logos, names and numbers to multiple locations on almost every RefrigiWear® garment.

HEAT TRANSFERS

Heat transfers impact only the exterior of the garment and allows you to use intricate, picture-quality images.

- Low-cost alternative to embroidery
- Great for large graphics on back of garments
- Must be a minimum order of 50 units
- Allow 7-10 days for production

SELF-PATCH EMBLEM

Self-patch utilizes a swatch of the same material as your garment for an embroidering patch. This ensures a match to your garment, but it can still be easily removed and replaced.

WOVEN EMBLEM

Woven designs give you greater flexibility on a patch that is sewn onto the garment. It also makes replacement easy. Woven Label Emblems are manufactured using high-speed automatic weaving looms. Unlike embroidered emblems which are produced on twill materials, the interlaced weaving process creates the entire emblem and design at the same time, in two or more colors.

Visit pro.refrigiwear.com/embroidery to learn more.
