CORDOVA®
SAFETY PRODUCTS

Cordova Tactyle™ CR gloves are finely engineered high performance gloves designed to offer the perfect balance of tactile sensitivity, dexterity, and cut resistance. We use 18- & 21-gauge machine knit shells constructed of HPPG™, HPPE/Stainless Steel and HPPE/Tungsten Steel along with durable Tuf-Cor™ Nitrile to produce gloves that offer a wide range of physical properties to address multiple end uses.

TUF-COR™ Nitrile

All Tactyle™ CR gloves are made with Tuf-Cor™ Nitrile which is a unique blend of Nitrile and Water-Based Polyurethane with a fine sandy textured finish. The durability of Nitrile and the flexibility and softness of Water-Based PU create a coating that offers outstanding abrasion resistance and remarkable tactile sensitivity. These features make Tuf-Cor™ Nitrile the ideal coating for our finely engineered 18 & 21-gauge high performance gloves.
