## Unsurpassed Quality

Diamonds are the hardest material there is. But porcelain comes a close second. Fired at over 2550° F, our china offers all the excellent properties of true hard porcelain.

Our porcelain's hard glaze makes it extremely resistant to metal marking, caustic solutions, and shocks. This enables our tableware to retain its luster while being hygienically safe. And, of course, it results in less wear.

High quality materials, extremely high firing temperatures, and optimum design ensure a high chip resistant china – without making the individual pieces too heavy!

Even after the 3000th wash cycle, BAUSCHER and TAFELSTERN porcelain will still look like new and its surfaces will sparkle like they did on the first day. Decorations will not fade or be damaged, for at the extremely high firing temperatures, our colors sink into the glaze and fuse with the porcelain. This means that they are permanently protected.

We have the know-how required to design porcelain so that it will optimally satisfy all demands made on perfect catering tableware and completely fulfill the differing needs of our customers: design, functionality, durability, stackability and breakage resistance. Opting for our porcelain means putting our experience and quality to work for you.

## European White

Our products use only the world's second hardest material after diamonds. Its ability to withstand the rigors of catering makes it perfect for professional applications. To this end, we work exclusively with premium raw materials - kaolin, quartz, and feldspar in a very special mix - at factories that are equally first rate. Our manufacturing sites are some of the world's most modern plants, where premium grade porcelain is indeed "Made in Germany."

Our porcelain's hard glaze makes it extremely resistant to metal marking, cuts, and abrasions. The high quality materials, extremely high firing temperatures, and optimum design ensure a high chipping resistant china. The unsurpassed quality and incomparable look and feel of this porcelain makes it the sophisticated solution that our discriminating customers seek.

Porcelain with a flair for being combined. Time and again, chefs can create wonderful new combinations through the uniform colors of our many self made European White collections.

Pieces highlighted by this logo are part of our modular cup and saucer program which allow infinite opportunities to customize your tabletop with European white hard porcelain.

## Duracream®

### Another Innovative First

Duracream®. Fired at a temperature of 2,550°F, Duracream® features all the excellent properties of real hard porcelain, such as an extremely cut resistant glaze. Moreover, Duracream® gleams in a warm shade of cream, providing a perfect combination: cream-colored hard porcelain.

The new porcelain formula allows a very high chipping resistance. This means that plates can be designed with particularly thin rims, giving them the air of lightness and elegance.

Duracream® was introduced in 2003.

Many of our collections are inspired by nature. We strive to be good stewards of our resources to ensure future inspiration.

Hard porcelain and the environment go well together, as porcelain is made from only a few natural raw materials: quartz, feldspar and kaolin. Porcelain has an outstanding environmental balance sheet:

- It does not give off any harmful products, and it is durable
- It does not lead to mountains of rubbish, in contrast to disposable tableware
- It does not pollute the environment at the end of its lifespan

One of the greatest challenges remains the high level of thermal energy that is required for ceramic firing. We have fundamentally changed this technology in order to use as little of this energy as possible:

- Reduction in energy use by one third during the last 15 years
- Introduction of quick fire technology and the use of light kiln furniture made from high-tech ceramics in order to reduce CO<sub>2</sub> emissions; as a result of this, we do not have to take part in CO<sub>2</sub> emissions trading
- Filtering the flue gas to remove the only considerable polluting substance, fluorine in its gaseous compounds, since the beginning of 1990

Insofar as sustainable economic activity is concerned, we have succeeded in completely recycling all defective raw and semi-manufactured products, as well as taking a waste water treatment plant into operation, starting various energy and water saving projects and reducing the consumption of raw materials. Our efforts have been recognized with the “Energy Efficiency Award 2008” for our reduction in electricity consumption.

# Striking individuality – produced in quantity

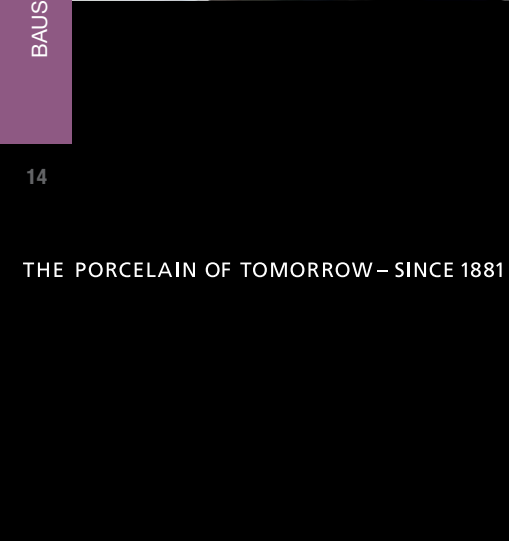

Every meal tastes twice as good when served on a tastefully decorated item. Our customers may choose from more than 25,000 décor variations. Or they can develop new designs based on their unique ideas or corporate designs. Our décor studio, staffed with highly qualified designers, will be delighted to help. Custom chinaware gives every location a unique touch. And individuality at Bauscher does not begin with an order for a thousand pieces. If it helps our customers, we will even happily fill individual orders.

Durability is not a concern with high-quality Bauscher décor. It will neither fade nor is it susceptible to damage. Fired at extremely high temperatures, our colors amalgamate with the glaze to create surfaces that lose none of their gorgeous luster, even after more than a thousand dishwashing cycles.

Dimension

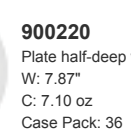

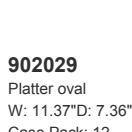

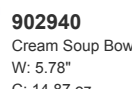

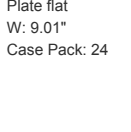

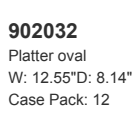

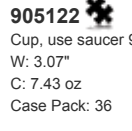

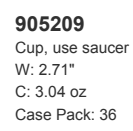

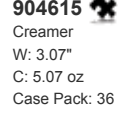

United Against Monotony

Dimension is an inventive and user-oriented collection. Its simple design and exceptional functionality make it the perfect and practical partner for event gastronomy and professional catering.

And because here more than just pragmatism is expected, the handles striking lines and the holloware’s refreshing contours also provide the Dimension collection design value.

Dimension pairs particularly well with the cups and holloware from the new Enjoy collection.

# Maître

## When Tradition Meets Modernity

Maître is one of the most popular chinaware collections in high-end catering. And with good reason: The lavish design reveals itself in the round plates with outsized rims, platters with asymmetrical rims, cups in various shapes, and décor variations ranging from striking to elegant.

All this bestows the collection an individual and unique style. *Maître* creates the best conditions for a sophisticated and creatively set table.

A first glance at *Maître* is enough to flatter a guest.

Customize your *Maître* presentation with Options or Compliments.

Prisma

Decorative Understatement

The *Prisma* collection is restrained and yet impossible to miss. Regardless of which side it is viewed from, *Prisma* always makes a gleaming impression. Its relief contours are drawn from art nouveau, a style in which form and function play important roles. And with pretensions such as these, the collection not only fits superbly into the BAUSCHER program, but also suits the application conditions of modern gastronomy.

# Contour

## Beauty With Depth

*Contour* discovers the fascination of textile worlds. The new collection borrows an intense obsession with details from the tailoring perfection of the fashion world. The surface is reminiscent of quilted seams. Their soft materiality stands in contrast to the classical strictness of the forms.

In the combination of rounded and angular forms, *Contour* finds a new and international answer to the enormous diversity of styles in contemporary gastronomy and the hotel sector.

The angular showpieces are a further complement to the TAFELSTERN modular programme and are simply ideal as highlights in other TAFELSTERN collections.

*Ideal for combining with other shapes from the TAFELSTERN modular portfolio, e.g. Essentials, Relation Today or Avantgarde.*

# Impression

## Performing a Wide Range of Functions

To create a new, aesthetic experience for the guest with only a few selected items on the table is the fundamental idea behind *Impression*.

The combination of soft geometrical shapes and clearly defined inner lines brings the best out of food creations.

In its purism *Impression* is related to *Avantgarde*. *Charisma*, *Coffeelings*, and *Relation Today* are optimal supplements to *Impression* as well.

# Inspiration

## Countless Opportunities to Delight and Surprise Your Guests

There are some old rituals which, having almost disappeared from memory, are now enjoying something of a renaissance.

These traditions express the respect and appreciation you extend to your guests and provide a fine setting for actually serving the meal: cloches are attentively removed, meat carved at the table, gravies and sauces served separately.

A wide range of unusual and multi-purpose articles make *Inspiration* a complete offering and afford you countless opportunities to delight and surprise your guests.

# Pure Style

## Clear Lines, Linear Forms, Expressive Style

This line inspires with its plain and simple design and pleasant serenity. The rims of the flat and deep plates provide stability and orientation and leave ample space in the centre for the presentation of food.

Attractive contrasts and decorative accents are set by the floral reliefs on the puristically austere plates.

*Pure Style* shines without trivial showiness—a true classic at an unbeatable price.

*In liaison with Coffeelings, Essentials, Inspiration, and Relation Today, Pure Style is revealed as a particularly charming partner.*

# Relation Today

## An Old Friend is New Again

*Relation* has represented modern tableware of the highest quality since 1988, to a greater degree than any other porcelain. In the changing “Zeitgeist” of a new century, *Relation Today* from TAFELSTERN presents new, beautifully shaped bowls and cups, which are a perfect match to the formal clarity of the plates and saucers.

This shape is an ideal collection to marry with *Charisma*. In addition, *Relation Today*’s cups, bowls, and hollowware complete *Avantgarde* and *Pure Style*. Regardless of how you present individual pieces from different ranges—the combination is always optically perfect. Let yourself be inspired.

# Showpieces + Tantris

## Amuse Your Guests with Spectacular Entertainment

*Showpieces* have their own unique charisma and create the right setting without any need for further decoration.

Whether for starters, for presentation of the main course or for a dessert—these uniquely designed pieces provide great flexibility. Eating turns into real entertainment.

Restaurant *Tantris* in Munich, working closely with the architect and designer Vera Purtscher and TAFELSTERN, has developed the porcelain range Tantris, which matches the haute cuisine of the establishment.

*The minimalist Showpiece collection can be combined with all TAFELSTERN ranges.*

# Solutions

## For Coffee and More

Coffee is an expression of urban lifestyle, and is enjoyed in many variations. At breakfast in hotels, after dinner and, of course, in bistros, coffee shops and bakeries. And often, a coffee break is extended to become a meal between meals. *Solutions* is the answer to this trend. An extraordinary coffee concept that includes unusually styled flatware for the presentation of small snacks. *Solutions* can be smoothly integrated into the familiar TAFELSTERN modular system.

# Supreme Duracream®

## A Modern Interpretation

*Supreme* combines classicism with a new modernism to bring a successful blend of under-statement and sophistication to the table.

Clear lines are the distinguishing features of the design statement. The generous proportions of the plates allow food to be presented in a tasteful manner.

The flat centre is framed by a convex and a concave rim. The proportions of both rims vary on the flat plates and the soup plates—a further optical highlight!
