

PULSAR G2™ Value, Durability, Style and Comfort

The Pulsar G2's performance outsole is abrasion and slip resistant and the blended PVC upper provides excellent durability and value.

Chevron Plus Outsole:

For slip resistance on wet-contaminated and wet-clean surfaces.

Contour Insole:

Cushioned removable polyurethane insole absorbs shock for added comfort.

Ideal Applications: Poultry Husbandry and Processing, Farm and Barn, Agricultural, Municipal, and other Light Industrial applications.

Chemical Resistance: Fats, oils, acids, alkalies, and many other chemicals.

Pulsar G2™ Knee Boots feature a combination of durability and comfort at outstanding value.

Formulated with a high performance PVC outsole and a unique PVC blended upper, the result is a boot with good abrasion and slip resistance at value pricing.

- Calf Relief Expansion (CRE)™ expands up to 1.5 inches for more calf comfort
- Injection molded construction for 100% liquidproof protection
- Composite safety toe meets or exceeds ASTM F2413 I/C and does not transfer cold or set off metal detectors
- Soft and flexible upper material for all day working comfort
- Cutline at 12" to facilitate fast and clean height modification
- New premium outsole provides great abrasion and chemical resistance, yet is soft enough for excellent slip resistance and walking comfort
- Beveled heel for reduced back and leg strain resistance and walking comfort
- Tread wear indicators (TWI) to show when half the tread has worn away
- Meets ASTM F2413 SRO for slip resistance
