

Customizable Panel Installation Guide - GDC Models

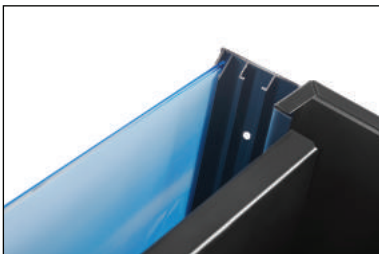

1. Remove screws (2) from the top of the unit on the lightbox frame.

2. On one-door units, remove screws (2) from the top of the unit on the joining strip; remove the joining strip.

3. Remove the top screw on the left and right sides of the lightbox frame (there are two screws on each side, and only the top one needs to be removed).

4. Lift off the top of the lightbox frame.

Customizable Panel Installation Guide GDCs

5. Slide out the old panel, by pulling the panel upwards.

6. Replace the top section of the lightbox frame.

7. Replace the joining strip and replace screws from the top of the unit.
