Instructions

Using a shaved ice machine, shave 8-ounces of ice into a cup or bowl. In even portions pour 1-ounce of each flavor across the top of the ice. Start with the green flavor [Margarita] on the left, white [Coconut] down the center, ending with red [Strawberry] on the left. That way the colors are in order, resembling the Mexican flag.*Fold the Airhead Xtremes candy strip back and forth onto the skewer (accordion style), stick into the ice, and serve for Cinco De Mayo with a spoon or spoonstraw.
