

PALLET RACK BOLTED TEAR DROP - WIRE DECKING SHELVES

The Interlake Mecalux bolted tear drop pallet rack unit with wire decking provides versatility for warehouses that have wide varieties of product types.

It is manufactured from high-strength steel and other quality raw materials. Teardrop perforations on the face of the column allow shelf adjustment at 2" increments.

Tear Drop Upright Column

- 14 GA rolled formed upright column.
- Simple shelf adjustment at 2" vertical intervals with tear drop punch design.
- Side perforations are used for accessories such as row spacers and column protectors.

Wire Deck Shelves

- Waterfall design with 6 GA wire and 14 GA channels
- 2,500 lbs capacity per deck with even distributed loads
- Gray finish
