

Recessed Roll Towel Dispenser Retrofit into Existing Wall Unit Installation Instructions

TOOLS REQUIRED FOR INSTALLATION

3/8" ratchet Center Punch
Drill Marker
Hammer

Using the 3/8" ratchet remove the 4 nuts and studs that hold the top assembly including the door.

Remove the top assembly including the door.

Open the San Jamar dispenser with the key.

Holding the San Jamar dispenser in the opening and up to the top, mark the screw locations on the stainless steel flange.

Center mark the holes using a center punch.

Drill mounting holes through the flange.

Insert optional filler plate into the exposed opening. (Sold separately, part number XT800SS).

Attach dispenser to the wall studs using 4 screws through the screw bosses (Screws are not included with dispenser).

Load 4 D-cell Alkaline batteries as shown. Batteries must be loaded in the correct orientation, with positive end towards the left. If batteries are not loaded correctly, unit will not function.

Please Note: The ADA requires that there be clear floor space for approaching the paper towel dispenser, measuring 30 inches by 48 inches.

For ADA dispensers intended for a side reach approach, the towel dispenser shall be mounted between 9 and 54 inches above the floor and 15 and 48 inches for a forward reach.

Load paper onto hubs. Pull down and drape so that paper is hanging off the back of the roll. Pinch paper by rolling between two rollers. Close cover. Dispenser will feed the first sheet and is ready to use.

Dispenser is ready to use.
