

CONGRATULATIONS ON THE PURCHASE OF YOUR NEW WELBILT COMMERCIAL COOKING EQUIPMENT.

Most newly purchased Welbilt products include a startup, performed by our Factory Authorized Service Agents (FAS)*. This startup is included in the purchase price of the equipment and will be performed at a time that works with your operating schedule and will be coordinated with the FAS. This is an important part of your warranty coverage and should be scheduled shortly after your unit is fully installed and operating. The startup is a critical step, it is the only trigger for activating the warranty. Failure to complete the startup could effect warranty coverage.

Please contact startupdemo@mocciaent.com with the following information to initiate your startup:

Site name:

Site address:

Contact name:

Contact email address:

Equipment Model number:

Equipment Serial number:

If startup is not selected, I hereby acknowledge that I have waived the free startup/performance check on my new equipment.
