50521

Additional Information

Flavor Group: Milk

Flavor Modifier: Sweet: Sweet Creamy

Flavor Performance Features: Sweet

Feature Benefit 1: Provides a rich, distinct malted milk flavor designed specifically as an additive for beverages and food applications.

Feature Benefit 2: Formulated as a versatile instant malted milk powder, not the straight malt powder typically used in baking, ensuring ideal performance in drink systems.

Feature Benefit 3: Easily dissolves in both hot and cold liquids, simplifying preparation and integration into shakes, smoothies, cappuccinos, milk-based beverages, and desserts.

Feature Benefit 4: Elevates beverages and food offerings with a distinctive malt taste that differentiates your menu and appeals to nostalgic and modern consumers alike.

Feature Benefit 5: Enables creative menu innovation — from malted milk shakes and café-style drinks to dessert toppings and premium beverage add-ons.
