FLEXVENT™ SLIDE-IN WITH DOWNDRAFT VENT SYSTEM AND FIRE SUPPRESSION

DESCRIPTION

Vollrath® FlexVent™ is a slide-in unit with Downdraft Vent System and fire suppression. It is designed for presentation cooking to eliminate the need for bulky exhaust hoods. The self-contained unit is customizable for use with a variety of electrical cooking appliances including: induction ranges, griddles, sandwich presses, and fryers. The adjustable shelf accommodates various appliance and cooking vessel heights to comply with health code and Authority Having Jurisdiction (AHJ) requirements. This UL Recognized station can be installed over, under, or flush with a countertop to integrate with your serving line design.

STANDARD FEATURES

- Self-contained Downdraft Recirculating Vent System and fire suppression eliminates bulky exhaust hoods
- Customizable cord-and-plug electrical cooking appliance configurations offer versatility*
- Adjustable shelf adapts to ergonomic, code, and fire suppression requirements
- Versatile over, under, or flush with countertop installation allows for design flexibility
- Adaptable breath guard accommodation facilitates code compliance — consult with your local Health Department and AHJ for requirements
- Operator-side service access creates a finished look
- Configurable LED lighting switch (lights not included)
- UL 710B Recognized, UL Classified to NSF2

***Unit is not intended for use with gas appliances. Cooking appliances are sold separately.**
