## Notes & Details

This Acopa Heavy Weight 8 qt. full size dripless stackable stainless steel roll top chafer is functional, attractive, and perfect for all your food presentation needs! Great for restaurants, buffets, or catering operations, this chafer allows you to serve food with style and ease.

There's nothing more disappointing than serving beautiful, hot, steaming dishes and having condensation drip ruin their presentation. This chafer has a unique dripless design that allows water from the lid to drain right back into the water pan. This keeps your surfaces dry and improves your dish presentation. The design of this chafer also allows the lid to open 180 degrees to provide full access to your best offerings. The hinge stays open at any angle, so you also have the option to open it only part way. In any case, this means you and your patrons no longer have to worry about holding a pesky, wet lid while dishing out food. This makes for a seamless process that patrons will appreciate.

This chafer is not only designed for convenience, but durability as well. This chafer is made of strong stainless steel and is built to last. Use it frequently or for high volume events, this stainless steel is 15% heavier than other traditional roll top chafers. This Acopa chafer does not sacrifice visual appeal for durability either - it features a highly polished mirror finish for an upscale look that is sure to improve the presentation of any dish. This chafer is also stackable, for easier storage and transportation. Serve your patrons a meal they wont forget with this Acopa chafer.

**Set Includes:**

- (1) Chafer stand and lid
