5-15P

ETL Listed

Technical Data

Number of Blades	1 Blades
Number of Discs	None
Plug Type	NEMA 5-15P
Power Type	Electric
RPM	1500 RPM
Speeds	1 Speed
Type	Batch Bowl Processors

Notes & Details

Cut down on prep time while cutting and mixing a variety of ingredients with the AvaMix Revolution BFP34CL 1 hp commercial food processor! With a 1 hp motor, this robust unit packs the requisite power to handle large quantities of fruits, vegetables, sauces, and soups. Additionally, the pulse button makes processing food even faster and easier, since you can pulse until your desired consistency is achieved. Its build includes a durable base with nonskid feet for secure use, while its direct drive motor with stainless steel motor shaft and stainless steel blades will hold up to the demands of commercial operations.

The BFP34CL comes with a clear lid that has an opening, which makes it easy to monitor processing progress and add ingredients when necessary. The lid magnetically seals, and the blades will automatically stop when the magnet disengages to ensure safe use for the operator. Additionally, the blade will not spin until the lid is shut and the bowl is locked in place. The 3 qt. clear polycarbonate plastic bowl holds plenty of product at once and adds additional visibility while remaining easy to clean.

The AvaMix BFP34CL is easy to control, as it has a simple on / off switch located conveniently on the side. It's also compact in size, measuring just 10" x 12" x 18 1/2", which makes it suitable for establishments that have limited counterspace. This unit easily disassembles, making it simple and convenient to store away when it is not in use. The food processor requires a 120V electrical connection for operation.
