

AvaMix Revolution CFBB342DG Combination Food Processor with 3 Qt. Gray Plastic Bowl, Continuous Feed, and 2 Discs - 1 hp

#928CFBB342DG

Technical Data

Width	11 Inches
Depth	12 Inches
Base Height	13 1/2 Inches
Height (with Bowl)	18 1/2 Inches
Height (with Continuous Feed)	23 Inches
Phase	1 Phase
Voltage	120 Volts
Wattage	735 Watts
Bowl Capacity	3 qt.
Bowl Material	Gray Plastic

Features

- Featured pulse button and powerful 1 hp direct-drive motor
- Batch bowl and continuous feed attachment cover anything from vegetable slicing to preparing soups
- Batch bowl attachment includes 3 qt stainless steel bowl, S blade, and clear lid to view ingredients
- Continuous feed attachment allows for constant slicing and grating, for less manual food preparation
- For maximum safety, the blade will not spin until the bowl is locked in place and the lid is shut

Certifications

Technical Data

Hopper Style	Half Moon
Horsepower	1 hp
Number of Blades	1 Blades
Number of Discs	2 Discs
Plug Type	NEMA 5-15P
RPM	1500 RPM
Speeds	1 Speed
Type	Combination Processors

Notes & Details

Cut down on prep time while cutting and mixing a variety of ingredients with the AvaMix Revolution CFBB342DG 1 hp combination commercial food processor! With a 1 hp motor, this robust unit packs the requisite power to handle large quantities of fruits, vegetables, sauces, and soups. Additionally, the pulse button makes processing food even faster and easier, since you can pulse until your desired consistency is achieved. Its build includes a durable base with nonskid feet for secure use, while its direct drive motor with stainless steel motor shaft and stainless steel blades will hold up to the demands of commercial operations. The CFBB342DG comes with a continuous feed attachment to further increase prep speed, as well as a 5/32" slicing disk, a 5/64" grating disc, S-blade, and a plastic ejector disk for improved flexibility. The continuous feed attachment, which has a 6" x 3" kidney opening and 2" cylindrical opening, is ideal for processing vegetables like cucumbers, carrots, celery, and other similar products.

The 3 qt. bowl comes with an opening to monitor processing progress and add ingredients when necessary. The lid magnetically seals, and the blades will automatically stop when the magnet disengages to ensure safe use for the operator. Additionally, the blade will not spin until the lid is shut and the bowl is locked in place. The 3 qt. gray ABS plastic bowl holds plenty of product at once while remaining easy to clean.

The AvaMix CFBB342DG is easy to control, as it has a simple on/off switch located conveniently on the side. It's also compact in size, measuring just 10" x 12" x 18 1/2", which makes it suitable for establishments that have limited counterspace. And because it disassembles, you can easily store it away when not use. The food processor requires a 120V electrical connection for operation.

Included Discs/Blades:

- 5/32" slicing disc
- 5/64" grating disc
- S-blade
