Type	Heavy-Duty

Notes & Details

Make short work of mixing or blending jobs right in the bowl or stock pot with this AvaMix heavy-duty variable speed immersion blender! Boasting a 10" whisk attachment that allows you to whip delicate egg whites, creams, batters, and mashed potatoes to the perfect consistency, this heavy-duty blender is a versatile tool that every commercial kitchen needs. The whisk attachment has removable, dishwasher-safe paddles, making cleanup at the end of a long night a quick and effortless task. Plus, you can use this unit with any other size AvaMix blending shaft (sold separately).

Great for any task from light mixing to heavy whipping, this unit has a 1 1/4 hp motor and boasts 850W of power for handling products at a speed of 8,000-18,000 RPM. This makes it convenient and user-friendly to adjust to the perfect speed while blending your product without any trouble. To provide the operator with full control, this blender features a variable speed mechanism that lets you adjust the rate at which you're whipping or emulsifying your products with an easy turn of the dial on the handle. This unit also includes a lock button for continuous, hands-free operation.

For user safety, the unit requires two buttons to be pressed to start the unit, but once running, the enable button can be released, and the unit is controlled just using the power button. Cooling fans on the housing ensure that this unit will stand up to any commercial kitchen without overheating! The whisk attachment easily detaches from the base for easy cleaning. A 120V electrical connection is required for operation.
