Notes & Details

The Avantco CMAPADJ automatic airport coffee maker with adjustable shelf is the affordable and durable solution to your coffee needs! Designed for easy use with simple toggle-switch operation, this coffee brewer features an adjustable shelf to accommodate multiple pot sizes, from 2.2 L to 3.8 L. Ideal for restaurants and cafes, this coffee maker is the perfect solution for your business or facility. The unit brews coffee between 190 and 200 degrees Fahrenheit for a rich, consistent product every time.

Its external stainless steel construction gives it a sleek appearance and makes it easy to clean. To ensure you can keep up with busy hours, this compact brewer can produce up to 60 8 oz. cups of coffee per hour. This coffee maker connects to a 3/8" rear mounted water line that fills the reservoir. This unit requires a 120V electrical connection for operation.
