Oil Capacity	150 - 170 lb.
Plug Type	NEMA 15-20P
Power Type	Liquid Propane
Split Pot	Without Split Pot
Temperature Range	200 - 400 Degrees F
Total BTU	120000 BTU
Type	Donut Fryers Funnel Cake Fryers Gas Floor Fryers

Notes & Details

This Avantco FBF2424LP liquid propane 150-170 lb. flat bottom donut floor fryer with millivolt controls is perfect for frying funnel cakes, donuts, or other wet batter products. The flat bottom on this fryer ensures that wet batter products do not overlap, and instead, have enough flat space area. With a 150-170 lb. oil capacity, this fryer is the ideal unit for high volume restaurants, concession stands, sports stadiums, farmers markets, or carnivals. With an ample amount of cooking space and durable stainless steel construction, this fryer will be sure to last a long time.

The stainless steel front, door, sides, drip tray, and splash guard provide ultimate durability and are resistant to rust. This ensures that you get the most use out of your fryer, while minimizing the time and money spent on repairs. The millivolt controls, adjustable between 200-400 degrees Fahrenheit, allow you to keep the oil at the perfect temperature for whatever you're cooking.

The 24" x 24" flat bottom design of this fryer provides unique benefits. This fryer does not have a cold zone, unlike many other fryers. This maximizes frying capacity and evenly heats all products to the perfect temperature so you can continue to provide your customers with donuts, funnel cakes, and other fried products. In addition, the products are able to float freely as they cook, perfect for pastries or hushpuppies. This unit requires a liquid propane connection for operation.
