## Notes & Details

The Avantco HWDD2 2 gallon digital hot water dispenser is perfect for times when you need a lot of hot water quickly or are setting up a hot beverage bar. Whether you are filling insulated beverage dispensers or individual tea cups, use this dispenser to make sure you never run out of hot water. Since this model has a simple digital control, you can set the water temperature you want and also make sure it's hot and ready when you need it.

This hot water dispenser is made of stainless steel for a strong, durable product that will last through many uses. With its shining finish, this unit will look professional on your countertop.

Made for the commercial environment, this dispenser features a cup clearance of 10" so that you can easily fill tall mugs and servers. The removable drip tray catches any stray drops or spills to keep your work area clean and safe. A great choice for your restaurant or cafe, this dispenser requires a 120V, 1800W electrical connection.
