Number of Burners	Single
Number of Power Levels	10
Power Type	Electric
Suggested Weight Capacity	40 lb.
Temperature Range	140 - 460 Degrees F
Type	Heaters Induction Ranges
Usage	Front of House Standard Duty

Notes & Details

This Avantco ICBTM-20 countertop induction range delivers superior usability and performance for all your cooking needs! Perfect for display cooking and other light-duty applications, this induction unit is safer than conventional countertop ranges since there's no open flame or exposed burner. Plus, its innovative technology allows it to heat up in as little as 1 minute. For added convenience, a built-in 180 minute timer and lockable keypad allow you to maintain total control over your culinary creations, and you can cook using either a power level / wattage mode (500-1800W), or a temperature mode that ranges from 140 - 460 degrees Fahrenheit. There are 10 different power levels between 140 and 460 degrees Fahrenheit. Simply place an induction-ready pan or pot on the cooking surface, turn it on, and choose your power level!

- Accepts induction-ready pots or pans with a bottom diameter of 4 3/4" to 10 1/4"
- Power level / wattage mode from 500-1800W
- Temperature mode from 140-460 degrees Fahrenheit
- Heat generated in the bottom of the cookware for super-fast cooking speeds
- Easy to read digital display with lockable keypad
- 180 min. timer (5 min. increments)
- Automatically switches to standby mode when cookware is removed from the surface
- 120V and 1800W
