Notes & Details

Slice your signature meats with precision and ease using this Avantco SL713A 13" medium-duty automatic meat slicer! A great addition to your high-end deli, local butcher shop, or neighborhood market, this meat slicer is the perfect solution for your medium-duty slicing needs. Combining a powerful 3/4 hp motor with a razor sharp 13" stainless steel blade, this unit delivers superior precision while also helping to save on time and labor. Its automatic mode produces 32 slices per minute to make quick work of your slicing tasks, and since you can turn on the slicer and walk away, you can multi-task with ease to keep up with high customer demand! Plus, this slicer has a simple knob to switch from automatic slicing to manual mode.

This unit's carriage can handle foods up to 9 7/16" long by 8 1/4" wide, allowing you to slice anything from large hams to salami! Thanks to its easy-to-use adjustment knob, this unit gives you complete control over your product's thickness, enabling you to produce uniform slices up to 1/2" thick. It also features a rear-mounted thickness stop that allows you to quickly set your desired thickness, helping to further boost your slicing efficiency. Plus, its adjustable horizontal clamps keep irregular shaped products securely in place to ensure consistent slices, resulting in less waste.

Two separate on/off buttons control the blade and automatic mode to make this unit extremely user-friendly so even your newest employees won't have trouble using it! While some components of this slicer require periodic lubrication, an oil pump is included to make this maintenance easier than ever. The slicer also features a removable, easy-to-clean sharpener to effectively keep the slicer's blade from dulling. For added safety, the slicer sits atop (4) 2" rubber feet to prevent slipping during use. A 120V electrical connection is required for operation. This slicer is rated for 3-4 hours of use daily and it should not be used to slice cheese for more than 30 minutes per day.
