Notes & Details

Keep your coffee hot, delicious, and ready to serve with the Avantco W53 step up double burner decanter warmer! This decanter warmer features 200W of heating power and two PTFE-coated aluminum dishes sure to keep your coffee hot without sticking to the decanter. It comes with separate on/off switches for simple and convenient operation, and the two-tier design gives customers optimum visibility of your coffee while keeping it easily accessible. And for outstanding durability, this decanter warmer's exterior is made of stainless steel. The Avantco W53 requires a 120V electrical connection.
