Notes & Details

Designed to toast up to 800 slices of bread per hour, the Avantco T3300D conveyor toaster is perfect for businesses with diverse toasting needs. Not only does its 10" wide conveyor belt fit 2 slices side-by-side, but its 3" opening accommodates a variety of products. Easily toast bread, bagels, english muffins, or buns per customer request. A front guide even helps the product load safely, ensuring that each slice is pulled directly into the unit for efficient and consistent toasting.

This particular unit boasts 8 conveyor speed options, which are easy to adjust with heavy-duty control knobs. Such control allows the operator to select how long bread is toasted, determining the final coloring and crispiness. Plus, independent controls are built-in for the top and bottom elements. Each control includes settings 1 to 6 and provides the operator additional control for easy, custom toast results.

Made of stainless steel, this toaster features front and rear shoots that are easy to attach and remove as needed. It sits on adjustable stainless steel legs, too, making sure that the countertop below is accessible for cleaning purposes. This horizontal conveyor toaster requires a 240V electrical connection for operation and has an output of 3300W.
