Avantco Ice 19490293 Evaporator Coil for MC500 Full Cube Ice Machine

Item #19490293

Technical Data

Type

Evaporator Coils
Mechanical Parts

Features

- Direct replacement for original part
- Essential part of your unit's refrigeration system
- Designed for use with MC500 full size ice machine

Notes & Details

This Avantco 19490293 evaporator coil is a direct replacement for the one that comes with MC500 ice machines. An essential part of any refrigeration system, the evaporator coil runs refrigerant through a coiled frame, absorbing heat from the interior of the unit and cooling it down so it can effectively make ice.
