Notes & Details

Quickly and easily fill 8 lb., 10 lb., and 20 lb. plastic wicketed ice bags with this ice bagger starter kit! With this ice bagger starter kit, there's no need to get ice delivered to your facility - you'll be able to bag and sell your own with ease. This ice bagger starter kit includes everything you need to get ice bags filled from the start. The included ice bagger is designed to hang onto the side of the ice bin for easy access, any time. Simply attach the hanger to the top of the unit, and hang the bagger on the front of your ice bin. You decide which side you attach the hanger to, left or right, depending on which is best for you and your operation. And thanks to the removable shelf, this ice bagger accommodates 8 lb., 10 lb., and 20 lb. bags, allowing you to fill and sell all of the most popular bag sizes with one single unit!

To use the ice bagger, start by hanging the included wicketed ice bags on the metal bracket below the opening. Place the poly chute on top of the ice bagger unit, and move the first ice bag to cover the bottom of the chute. Attach the bag sealer tape sealer dispenser, with tape loaded, and you're ready! Using your ice scoop (sold separately), pour ice into the chute and fill the bag. The ice will remain clean from ice bin to bag, and you'll have no wasteful spills! Seal the bag closed with the bag sealer tape for a secure closure.

This ice bagger's aluminum body makes it easy to clean and durable enough to withstand daily use in a commercial environment. At the same time, the poly chute ensures a safe, sanitary surface for ice to funnel down through, into your bags, with an easy-to-clean design that's also BPA free for safety.

Kit Includes:

- 1 ice bagger for 8 lb., 10 lb., and 20 lb. ice bags
- (500) Choice 20 lb. wicketed ice bags with twist ties
- 1 bag sealer tape dispenser
- 1 3/8" x 180 yards red poly bag sealer tape
