Notes & Details

Sleek, contemporary styling makes this Avantco Ice BIN54030 30" ice storage bin with a plastic exterior makes a perfect companion to your Avantco 30" modular ice machine. This ice bin comes with 6" legs and an ice scoop for convenient installation and use. It also features a scoop holder ledge just inside the door where the ice scoop leans for easy storage. This bin has an easily removable baffle and requires no tools for cleaning. Perfect for bars, restaurants, and concession stands - anywhere cold drinks are served - this ice bin can hold up to 536 lb. of ice at a time.

Designed with a rotoplastic exterior finish, this ice bin is durable enough to hold up to the wear and tear of a busy commercial environment and resists corrosion. It also has a rear recessed drain fitting for maximum installation flexibility; the ice bin drain pipe comes from underneath the backside of this unit. A spring loaded door with hidden hinges allows for easy opening and closing so employees can access your ice supply when needed. Plus, at just 30" in width, this ice storage bin is perfect for kitchens where space is at a premium.
