Certifications

Certified by NSF

Notes & Details

With this ice bagger from Avantco Ice Machines, filling individual bags with ice is a quick, easy, and mess-free process! Great for convenience stores, supermarkets, marinas, and campgrounds, this ice bagger allows you to bag and sell your own ice with ease. By eliminating the need to purchase pre-packaged ice for your facility, this ice bagger saves you money while helping to maximize your profits!

This ice bagger features a removable shelf to accommodate 8 lb., 10 lb., and 20 lb. bags (sold separately), allowing you to fill and sell all of the most popular bag sizes with one single unit. With a type 304 stainless steel body, this unit is easy to clean and durable enough to withstand daily use in your commercial environment. Its rounded plastic funnel effortlessly directs ice down into the ice bag, and at the same time prevents ice from spilling on the floor and causing a hazardous mess. Plus, its large size can handle high volumes of ice to ensure the bagging process is fast and efficient.

Designed with convenience in mind, this ice bagger attaches to your ice bin's door frame to make filling and bagging your a ice breeze! Thanks to its handle that allows it to be placed on the bin from either side, both your left- and right-handed employees can comfortably and effectively transfer ice into the ice bagger's funnel. When not in use, the ice bagger occupies minimal floor space for easy storage.
