

Avantco Ice Machines

Item #: 194KMCH322HA Project: _____

Qty: _____ Date: _____ Approval: _____

Avantco Ice KMC-H-322-HA 22" Air Cooled Modular Half Cube Ice Machine with Ice Dispenser - 350 lb.

Item #194KMCH322HA

Technical Data

Ice Dispenser Width	22 Inches
Ice Machine Width	22 Inches
Overall Width	22 Inches
Ice Dispenser Depth	33 1/2 Inches
Ice Machine Depth	24 3/8 Inches
Overall Depth	33 1/2 Inches
Ice Dispenser Height	47 1/4 Inches
Ice Machine Height	22 3/8 Inches
Overall Height	69 5/8 Inches
Phase	1 Phase

Features

- Makes up to 350 lb. of half cube ice per day; Dispenser capacity 120 lb.
- Durable 304 stainless steel ice machine and corrosion-resistant metallic cabinet
- Digital controller allows user to quickly identify issues and the current stage of production
- Removable air filter for quick cleaning and maintenance
- R290 refrigerant; 115V
- Note: only the ice machine holds the ETL certification

Certifications

Certified by NSF

5-15P

3/4" Water Connection

ETL Listed

Technical Data

Voltage	115 Volts
24 Hour Ice Yield	344 Pounds
Average Running Decibels	68.67 dB
Capacity	120 lb.
Color	Silver
Condenser Type	Air-Cooled
Dispenser Style	Push Button
Exterior Material	Stainless Steel
Features	NSF Certified
Ice Type	Half Size Cubes
Installation Type	Modular
Interior Material	Polyethylene
Max Decibels	78 dB
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Stainless Steel Type	Type 304
Type	Ice Machines / Dispensers
Water Inlet Size	3/4 Inches

Notes & Details

Make sure you've always got plenty of fresh ice on hand and easily accessible with the 22" air cooled modular half cube ice machine with dispenser! Capable of producing up to 350 lb. of half cube ice per day, you'll always have plenty of ice to serve on demand at your hotel, bar, or cafe. An included ice dispenser holds up to 120 lb. of ice and features a deep sink to accommodate hotel ice buckets of almost any size.

For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in. Plus, the ice dispenser has a 3/4 FTP drain fitting.

Constructed of durable type 304 stainless steel with a polyethylene interior, this unit is built to last in the busiest commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. With (4) 6" adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch+ water filter to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.
