## Avantco Ice KMC-H-322-LA 22" Air-Cooled Modular Half Cube Ice Machine with 383 lb. Storage Bin - 350 lb., 115V

Item #194KMCH322LA

### Technical Data

|                    |               |
|--------------------|---------------|
| Width              | 22 Inches     |
| Depth              | 34 Inches     |
| Height             | 66 3/8 Inches |
| Ice Bin Depth      | 34 Inches     |
| Ice Machine Depth  | 24 3/8 Inches |
| Overall Depth      | 34 Inches     |
| Ice Bin Height     | 44 Inches     |
| Ice Machine Height | 22 3/8 Inches |
| Amps               | 8.51 Amps     |
| Phase              | 1 Phase       |

### Features

- Makes up to 350 lb. of half cube ice per day and stores up to 383 lb.
- Durable metallic alloy exterior with a polyethylene interior
- Digital controller allows user to quickly identify issues and the current stage of production
- Removable air filter for quick cleaning and maintenance
- ETL certification applies only to the ice machine

| Water Temperature Range   | 40 - 90 Degrees F                      |

## Plan View

## Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice KMC-H-322-LA 22" air cooled modular half cube ice machine with bin! Capable of producing up to 350 lb. of half cube ice per day, you'll always have plenty of ice to serve on demand at your restaurant, bar, or cafe. An included ice bin holds up to an impressive 383 lb. of ice, making it ideal for busy establishments that cannot afford long periods of downtime while ice is being made. The ice bin features a durable metallic alloy exterior with a polyethylene interior. Also included is an ice scoop, a scoop holder ledge just inside the door where the ice scoop leans, and a hook to hang it on for easy storage.

For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in. Plus, the ice bin has a 3/4 FPT drain fitting.

The ice machine is constructed of durable type metallic alloy with a polyethylene interior to last in the busiest of commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. With (4) 6" adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch+ water filter to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.
