

Item #: 194KMCH422LA Project: _____

Qty: _____ Date: _____ Approval: _____

Avantco Ice KMC-H-422-LA 22" Air-Cooled Modular Half Cube Ice Machine with 383 lb. Storage Bin - 420 lb., 115V

Item #194KMCH422LA

Technical Data

Width	22 Inches
Depth	34 Inches
Height	66 3/8 Inches
Ice Bin Depth	34 Inches
Ice Machine Depth	24 3/8 Inches
Overall Depth	34 Inches
Ice Bin Height	44 Inches
Ice Machine Height	22 3/8 Inches
Amps	8.71 Amps
Phase	1 Phase

Features

- Makes up to 420 lb. of half cube ice per day and stores up to 383 lb.
- Durable metallic alloy exterior with a polyethylene interior
- Digital controller allows user to quickly identify issues and the current stage of production
- Includes bright LED lights and a removable air filter
- ETL certification applies only to the ice machine

Avantco Ice Machines

Technical Data

Voltage	115 Volts
Wattage	1002 Watts
24 Hour Ice Yield	420 Pounds
Ambient Temperature Range	40 - 90 Degrees F
Average Running Decibels	64.67 dB
Bin Storage Capacity	383 lb.
Color	Silver
Condenser Type	Air-Cooled
Exterior Material	Metallic Alloy
Features	LED Lighting Storage Bin
Ice Type	Half Size Cubes
Installation Type	Modular
Interior Material	Polyethylene
Max Decibels	74 dB
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Type	Ice Machines Ice Machines with Bins
Water Inlet Size	3/4 Inches
Water Pressure Range	18 3/4 - 80 PSI
Water Temperature Range	40 - 90 Degrees F

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice KMC-H-422-LA 22" air cooled modular half cube ice machine with bin! Capable of producing up to 420 lb. of half cube ice per day, you'll always have plenty of ice to serve on demand at your restaurant, bar, or cafe. An included ice bin holds up to an impressive 383 lb. of ice, making it ideal for busy establishments that cannot afford long periods of downtime while ice is being made. The ice bin features a durable metallic alloy exterior with a polyethylene interior. Also included is an ice scoop, a scoop holder ledge just inside the door where the ice scoop leans, and a hook to hang it on for easy storage.

For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in. Plus, the ice bin has a 3/4 FPT drain fitting.

The ice machine is constructed of durable metallic alloy with a polyethylene interior to last in the busiest of commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. With (4) 6" adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch+ water filter to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.
