Qty: _____ Date: _____ Approval: _____

Avantco Ice KM-N-522-LA 22" Air-Cooled Modular Nugget Ice Machine with 383 lb. Storage Bin - 550 lb., 115V

Item #194KMN522LA

Technical Data

Width	22 Inches
Depth	24 3/8 Inches
Height	24 3/16 Inches
Bin Width	22 Inches
Bin Depth	34 Inches
Bin Height	44 Inches
Amps	12 Amps
Hertz	60 Hz
Phase	1 Phase
Voltage	115 Volts

Features

- Makes up to 550 lb. of nugget ice per day and stores up to 383 lb.
- Durable 304 stainless steel and metal alloy exteriors with polyethylene interiors
- Digital controller allows user to quickly identify issues
- Kit includes ice machine, ice bin, and ice scoop
- ETL certification applies only to the ice machine

Certifications

5-15P

ETL Listed

3/4" Water Connection

Technical Data

Wattage	1380 Watts
24 Hour Ice Yield	550 Pounds
Bin Storage Capacity	383 lb.
Color	Silver
Condenser Type	Air-Cooled
Features	LED Lighting Storage Bin
Ice Type	Nugget Ice
Installation Type	Freestanding
Interior Material	Polyethylene
Material	Stainless Steel
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Stainless Steel Type	Type 304
Type	Ice Machines Ice Machines with Bins
Water Inlet Size	3/4 Inches

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice air cooled modular nugget ice machine with bin! Capable of producing up to 550 lb. of nugget ice per day, you'll always have plenty of ice to serve on demand at your restaurant, bar, or cafe. An included ice bin holds an impressive 383 lb. of ice, making it ideal for busy establishments that cannot afford long periods of downtime while ice is being made. The ice bin features bright LED lights and a convenient spring-loaded door with hidden hinges that stays open when fully lifted to provide easy access to the ice inside. Also included is a sanitary ice scoop and a scoop holder ledge inside the bin for easy storage.

For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. Plus, a removable air filter and baffle on the bin makes for quick and simple cleaning and maintenance.

This ice machine with bin is constructed of durable 304 stainless steel with a polyethylene interior to last in the busiest of commercial environments. The bin is also made with a corrosion-resistant metallic alloy exterior, making it ideal for settings that are high in moisture and humidity. With (4) 6" adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. Integrated spacers included on the back of the machine ensure required airflow needed to keep your unit from overheating. It also uses R-290 refrigerant, and the ice bin drain pipe comes from underneath the backside with a rear recessed drain fitting for maximum installation flexibility. This unit requires a 115V electrical connection for operation.

Kit Includes:

- Avantco Ice MN522A 22" air cooled modular nugget ice machine - 550 lb.
- Avantco Ice BIN40022 22" ice storage bin with metallic alloy exterior - 383 lb.
- Sanitary ice scoop
