# Avantco Ice MC-F-422-A 22" Air-Cooled Modular Full Cube Ice Machine - 399 lb., 115V

Item #194MCF422A

## Technical Data

|                           |                   |
|---------------------------|-------------------|
| Width                     | 22 Inches         |
| Depth                     | 24 3/8 Inches     |
| Height                    | 22 3/8 Inches     |
| Amps                      | 8.71 Amps         |
| Hertz                     | 60 Hz             |
| Phase                     | 1 Phase           |
| Voltage                   | 115 Volts         |
| Wattage                   | 1002 Watts        |
| 24 Hour Ice Yield         | 399 Pounds        |
| Ambient Temperature Range | 40 - 90 Degrees F |

## Features

- Makes up to 399 lb. of full cube ice per day
- Durable 304 stainless steel exterior with polyethylene interior
- Digital controller allows user to quickly identify issues and the current stage of production
- Removable air filter allows for quick cleaning
- R-290 refrigerant, 115V

## Certifications

ETL Listed

5-15P

3/4" Water Connection

## Technical Data

|                          |                          |
|--------------------------|--------------------------|
| Average Running Decibels | 64.67 dB                 |
| Color                    | Silver                   |
| Condenser Type           | Air-Cooled               |
| Ice Type                 | Full Size Cubes          |
| Installation Type        | Modular                  |
| Material                 | Stainless Steel          |
| Max Decibels             | 74 dB                    |
| Net Weight               | 115 LBS                  |
| Packaging Dimensions     | 25.8"W x 29.6"D x 24.5"H |
| Plug Type                | NEMA 5-15P               |
| Refrigerant Type         | R-290                    |
| Type                     | Ice Machines             |
| Water Inlet Size         | 3/4 Inches               |
| Water Pressure Range     | 18 3/4 - 80 PSI          |
| Water Temperature Range  | 40 - 90 Degrees F        |

## Plan View

## Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice 22" air cooled modular full cube ice machine! Capable of producing up to 399 lb. of full cube ice per day, you'll always have plenty of ice to serve on demand. At only 22" in width, this narrow unit is great for tight bars, kitchens, and coffee shops. For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in.

Constructed of durable type 304 stainless steel with a polyethylene interior, this unit is built to last in the busiest commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch+ water filter to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.
