Qty: _____ Date: _____ Approval: _____

Avantco Ice MC-F-430-A 30" Air-Cooled Modular Full Cube Ice Machine - 397 lb., 115V

Item #194MCF430A

Technical Data

Width	30 Inches
Depth	24 3/8 Inches
Height	22 3/8 Inches
Amps	8.71 Amps
Phase	1 Phase
Voltage	115 Volts
Wattage	1002 Watts
24 Hour Ice Yield	397 Pounds
Average Running Decibels	64.67 dB
Color	Silver

Features

- Makes up to 397 lb. of full cube ice per day
- Durable 304 stainless steel exterior with polyethylene interior
- Digital controller allows user to quickly identify issues
- Removable air filter allows for quick cleaning
- Features pre-drilled OceanLoch+ mounting holes

Certifications

3/4" Water Connection

5-15P

ETL Listed

Technical Data

Condenser Type	Air-Cooled
Ice Type	Full Size Cubes
Installation Type	Modular
Interior Material	Polyethylene
Material	Stainless Steel
Max Decibels	74 dB
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Type	Ice Machines
Water Inlet Size	3/4 Inches

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice 30" air cooled modular full cube ice machine! Capable of producing up to 397 lb. of full cube ice per day, you'll always have plenty of ice to serve on demand at your restaurant, bar, or cafe. For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in.

Constructed of durable type 304 stainless steel with a polyethylene interior, this unit is built to last in the busiest commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch+ water filter (sold separately) to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.
