

Item #: 194MCH530A Project: _____

Qty: _____ Date: _____ Approval: _____

Avantco Ice MC-H-530-A 30" Air-Cooled Modular Half Cube Ice Machine - 500 lb., 115V

Item #194MCH530A

Technical Data

Width	30 Inches
Depth	24 3/8 Inches
Height	22 3/8 Inches
Amps	11.26 Amps
Hertz	60 Hz
Phase	1 Phase
Voltage	115 Volts
Wattage	1295 Watts
24 Hour Ice Yield	500 Pounds
Ambient Temperature Range	40 - 90 Degrees F

Features

- Makes up to 500 lb. of half cube ice per day
- Durable 304 stainless steel exterior with polyethylene interior
- Digital controller allows user to quickly identify issues and the current stage of production
- Removable air filter allows for quick cleaning
- R-290 refrigerant, 115V

Certifications

ETL Listed

5-15P

3/4" Water Connection

Technical Data

Average Running Decibels	72.67 dB
Color	Silver
Condenser Type	Air-Cooled
Ice Type	Half Size Cubes
Installation Type	Modular
Material	Stainless Steel
Max Decibels	81 dB
Net Weight	144 LBS
Packaging Dimensions	33.3"W x 29.6"D x 24.5"H
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Type	Ice Machines
Water Inlet Size	3/4 Inches
Water Pressure Range	18 3/4 - 80 PSI
Water Temperature Range	40 - 90 Degrees F

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice 30" air cooled modular half cube ice machine! Capable of producing up to 500 lb. of half cube ice per day, you'll always have plenty of ice to serve on demand at your restaurant, bar, or cafe. For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in.

Constructed of durable type 304 stainless steel with a polyethylene interior, this unit is built to last in the busiest commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch+ water filter to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.
