

Avantco Ice Machines

Item #: 194UCF120A Project: _____

Qty: _____ Date: _____ Approval: _____

Avantco Ice UC-F-120-A 19" Air-Cooled Undercounter Full Cube Ice Machine with 40 lb. Storage Bin- 129 lb., 115V

Item #194UCF120A

Technical Data

Width	19 11/16 Inches
Depth	23 5/16 Inches
Height	36 3/16 Inches
Amps	3.5 Amps
Hertz	60 Hz
Phase	1 Phase
Voltage	115 Volts
Wattage	403 Watts
24 Hour Ice Yield	129 Pounds
Ambient Temperature Range	40 - 90 Degrees F

Features

- Makes up to 129 lb. of full cube ice per day while storing up to 40 lb.
- Durable 304 stainless steel exterior with polyethylene interior
- Digital controller allows user to quickly identify issues and the current stage of production
- Bright LED lights illuminate the ice bin and removable air filter allows for quick cleaning
- R-290 refrigerant, 115V

Certifications

Technical Data

Average Running Decibels	65.67 dB
Bin Storage Capacity	40 lb.
Condenser Type	Air-Cooled
Features	Storage Bin
Ice Type	Cubes Full Size Cubes
Installation Type	Undercounter
Material	Stainless Steel
Max Decibels	70 dB
Packaging Dimensions	22.9"W x 26.4"D x 32.9"H
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Type	Ice Machines Ice Machines with Bins
Water Inlet Size	3/4 Inches
Water Pressure Range	18 3/4 - 80 PSI
Water Temperature Range	40 - 90 Degrees F

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice 19" air cooled undercounter full cube ice machine! Capable of producing up to 129 lb. of full cube ice per day, these narrow footprint undercounters are great for the tight space needs of busy restaurants, bars or cafes. The narrow footprint design is great for saving on space and includes a 40 lb. bin to hold ice once it is made.

For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in.

Constructed of durable type 304 stainless steel with a polyethylene interior, this unit is built to last in the busiest commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. With 4 adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch+ water filter to the machine to ensure you are serving the cleanest and freshest ice possible. This unit requires a 115V electrical connection for operation.
