Qty: _____ Date: _____ Approval: _____

Avantco Ice UN-300-A Air Cooled Undercounter Nugget Ice Machine with 110 lb. Storage Bin - 280 lb., 115V

Item #194UN300A

Technical Data

Width	25 5/8 Inches
Depth	26 Inches
Height	43 5/8 Inches
Amps	6.5 Amps
Voltage	115 Volts
Wattage	748 Watts
24 Hour Ice Yield	280 Pounds
Bin Storage Capacity	110 lb.
Condenser Type	Air-Cooled
Ice Type	Nugget Ice

Features

- Produces up to 280 lb. of nugget ice per day and stores up to 110 lb.
- Durable 304 stainless steel exterior with LED-illuminated polyethylene interior
- Digital controller allows user to quickly identify issues and see the current stage of production
- Includes a removable air filter for quick cleaning and maintenance
- R-290 refrigerant; 115V

Certifications

3/4" Water Connection

5-15P

UL Certified

ETL Listed

Technical Data

Features	Adjustable Legs LED Lighting Storage Bin UL Certified
Included	Scoop
Installation Type	Undercounter
Interior Material	Polyethylene
Material	Stainless Steel
Plug Type	NEMA 5-15P
Product Type	Bar Refrigeration & Ice Equipment
Refrigerant Type	R-290
Stainless Steel Type	Type 304
Type	Ice Machines Ice Machines with Bins
Water Inlet Size	3/4 Inches

Notes & Details

Make sure you've always got plenty of fresh ice on hand with this Avantco Ice UN-300-A air cooled undercounter nugget ice machine! Capable of producing up to 280 lb. of nugget ice per day, these larger footprint undercounter units are great for meeting high production and capacity needs of busy restaurants, bars, or cafes. This machine can also store up to 110 lb. of ice in the built-in bin.

For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor your machine's current stage of ice production. It allows you to increase or decrease the bridge thickness to maximize your harvest into ice nuggets, rather than full sheets. It also initiates the cleaning cycle and displays the current stage of the cycle.

Constructed of durable type 304 stainless steel with a bright, LED-illuminated polyethylene interior, this unit is built to last in the busiest commercial environments. A nickel-plated evaporator and removable air filter make for quick and simple cleaning and maintenance. With 4 adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch+ water filter to the machine to ensure you are serving the cleanest and freshest ice possible. This unit requires a 115V electrical connection for operation.
