Notes & Details

Increase your sales of "grab and go" items like bottled tea and soda, or pre-packaged sandwiches and salads with this Avantco GDC-49-HC 53" black merchandising refrigerator! Designed with sharp looks and usability in mind, this unit is the perfect display for your products with its sleek black finish and a lighted top graphics area. And, since the housing is made from black-coated steel, you can be sure that it will provide superior durability. Additionally, it boasts 2 anti-fogging, dual-pane tempered glass swing doors to ensure that customers always have a clear view of your products, while 8 epoxy-coated steel shelves help you stay organized. Each shelf can hold up to 90 lb. of product. Plus, the shelves easily adjust to accommodate changing inventory and menus. Interior LED lighting on the right side also works to illuminate and further merchandise your products.

Designed to maintain temperatures from 33-40 degrees Fahrenheit, this refrigerator boasts a bottom-mounted 1/2 hp compressor that runs on R-290 refrigerant. This specialized refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. In addition, the bottom-mounted design makes it easy for employees to load and unload products due to the raised bottom shelf. For optimal temperature retention, the entire cabinet is foamed in place using polyurethane insulation. Other helpful features include magnetic gaskets, automatic defrosting, and a digital temperature control. This item requires a 115V electrical connection for operation.
