## Notes & Details

Optimize your back-of-house operations with this Avantco SSPPT-3F 94" 2 door refrigerated pizza prep table with 2 drawers, and better keep up with customer demands. Whether used in a university, pizza parlor, or resort, the unit will help streamline the pizza prep process with its convenient features and capacity. Its top rail, for instance, accommodates up to (12) 1/3 size food pans up to 6" deep (sold separately). These are great for holding common pizza toppings, from pepperoni and cheese to green pepper or ham. Plus, a lift-up lid encloses the pan rail to maintain proper, food safe temperatures. A full-length cutting board is mounted to the table surface, providing a place for slicing ingredients and assembling pies.

Beneath the workspace is additional storage. Because it's refrigerated, the space is great for storing back-up ingredients, such as sauce and dough, as well as less-common toppings. The left and right sides are open cavities behind two doors, and they contain two epoxy-coated shelves that can each accommodate up to 90 lb. of weight, helping to organize your assorted supplies. In the middle, the unit includes two built-in drawers to provide even more storage while allowing you to sort specific product. Drawers provide excellent organization for your food pans and can help maximize your kitchen's workflow. Drawers also allow you to quickly pull ingredients for faster operation and ease of use. This unit comes equipped with 6 divider bars.

High-quality performance is made possible by the unit's 1/2 hp refrigeration system, which maintains temperatures between 33 and 40 degrees Fahrenheit. It circulates R290 refrigerant, which has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3.

The construction of this unit is designed with commercial use in mind. It features a 430 type stainless steel exterior and 304 type stainless steel interior, which are fortified with foamed-in-place polyurethane insulation. The insulation also helps to promote proper temperature retention. For operation, the prep table requires a 120V electrical connection.

### Kit Includes:

- Avantco drawer insert (Item 17824680)
- Avantco 94" 3 door refrigerated pizza prep table (Item 178SSPPT3)
- (6) Avantco 21" x 1 1/2" divider bar (Item 178SSUD12300)
