Number of Shelves	2 Shelves
Plug Type	NEMA 5-15P
Refrigerant Type	R-600a
Sections	1 Section
Temperature Range	34 - 50 Degrees F
Temperature Zones	Single
Type	Countertop Refrigerators Refrigerators Wine Refrigerator

Notes & Details

Safely store canned beverages while keeping them cold and ready to serve with the AvaValley BRC-84-SZ single-section full glass door beverage refrigerator. Its wide-ranging temperature of 34 to 50 degrees Fahrenheit makes this wine refrigerator a versatile addition.

This streamlined unit is designed to fit under a bar counter to allow you to maximize efficiency while saving floor space. It's perfect for storing cans of specialty craft beer, canned rose, or cans of spiked seltzers for your bar staff to grab with no trouble at all. Depending on your needs and the ambient temperature of your environment, you can adjust your unit to the ideal storage temperature to keep your beverages nicely chilled. You can easily control the temperature with a user-friendly digital control display on the front of the unit. Best of all, the unit is also equipped with blue LED display lighting that catches the eye and helps you identify contents without emitting heat like a traditional bulb, ensuring that the refrigerator stays at the desired temperature.

The two wire shelves, which have a weight capacity of 44 lb., can easily hold up to 84 typical cans of any beverage, and two wire drawers allow for the storage of fruit, cheese, and other complementary snacks! The full length glass door is crystal clear and creates a more aesthetic presentation, and it has a lock to ensure contents remain secure after-hours. Plus, the door frame and handle are made from stainless steel to guarantee durability in commercial environments while remaining easy to clean. This unit requires a 115V, 1 phase electrical connection.
