Notes & Details

Whether you're cooking for the masses or only a few entrees, this Backyard Pro 30" stainless steel charcoal grill with removable legs and cover is just what you need. With 30" x 24" of ample cooking surface, you will be able to conveniently and efficiently grill burgers, vegetables, and more for all of your hungry customers.

This grill allows you to cook multiple entrees and appetizers at once. While your guests enjoy the lack of wait time for food, you will appreciate the convenience and efficiency this cooking surface allows. In addition, the nickel-plated steel cooking grate is height adjustable, with 3 1/2" between each setting, for proper cooking temperatures. With a simple slide action, you are able to quickly adjust the grate to one of three heights.

Cooking outside with a variety of elements will be no problem thanks to the heavy-duty 14-gauge, type 304 stainless steel body and legs. This durable construction will not only withstand consistent use, but also consistent exposure to a variety of weather conditions. Thanks to the four swivel casters with brakes, this grill is capable of moving effortlessly from one location to another. Whether you need to move it to the other side of the patio to accommodate tables or conditions require you to store the grill indoors, these casters make it that much easier to relocate!

Furthermore, the four legs are removable to provide compact storage when the grill is not in use, perfect for stowing during the off-season or if you need additional space on the patio! To ensure the grill remains in good condition, a weather-resistant vinyl cover is provided. This black material will easily conceal dirt or stains and provide safekeeping for the steel structure.
