- Great for restaurants, grocery stores, and butcher shops

Notes & Details

Quickly and conveniently create uniform sausage links with this Backyard Pro Butcher Series manual sausage tying machine! This machine is made of durable stainless steel for long-lasting use and easy maintenance. The manual hand crank operation is simple to use and doesn't require electricity. This machine is also compact, so you can easily set it up on your countertop for a convenient, space-saving solution.

With this machine, you can produce sausages with lengths from 1"-7". Simply insert sausage into the machine, choose your desired length, and start cranking! It even has measurements on the scale to help you create uniform lengths. This machine has a 50 mm diameter sausage hole, and it is recommended for use with sausages with a diameter of 42 mm or smaller. This unit comes with a spool of thread so you can get started tying sausages right away. Increase the efficiency of your sausage production operation with this sausage tying machine!
