- Lightweight welded cast aluminum design is durable and easy to clean

Technical Data

Power Type	Manual
Shape	Rectangle
Type	Meat Tenderizers

Notes & Details

Cube and tenderize even the toughest cuts of meat with this Backyard Pro Butcher Series 31 blade manual meat tenderizer! This reliable unit makes it easy to turn tough cuts into soft, succulent entrees while reducing cook times, reducing product shrinkage, and ensuring even cooking. Not only will the cuber deliver melt-in-your-mouth meat, but it also allows for better absorption of marinades and rubs for tantalizing flavoring. Great for butcher shops, meat purveyors, and even recreational hunters, this versatile unit accommodates beef, poultry, pork, venison, and fish up to 1 1/4" x 5" in size.

The meat tenderizer boasts dual blade assemblies with 31 stainless steel blades that effectively slice through connective tissues without tearing the meat, while 2 steel combs help guide the meat and prevent jamming. Its lightweight welded cast aluminum design features a poly base and combines with 2 clamps to reliably secure the unit to tabletops up to 1 1/2" thick. A set of tongs is conveniently included so that you can safely feed your product into the hopper.
