

Backyard Pro Courtyard Series 10' x 10' Blue Straight Leg Regular-Duty Steel Instant Pop-Up Canopy Tent

#554BP10X10B

Technical Data

Length	10 Feet
Width	10 Feet
Maximum Side Height	79 Inches
Color	Blue
Features	UV-Resistant
Frame Material	Steel
Material	100% Polyester
Shape	Square
Style	Straight Leg
Type	Canopies

Features

- Provides up to 100 sq. ft. of shelter for patrons, employees, and equipment
- Sturdy 100% 150D polyester canopy
- Quick set up saves time and labor during event preparation
- Canopy is water-resistant, fire-resistant (CPAI-84), and filters out harmful UV rays
- Regular-duty design is ideal for frequent use, such as weekly markets, fairs, or school events

Notes & Details

This Backyard Pro instant pop-up canopy tent offers commercial-grade durability with recreational-grade portability and reliability, making it easy to work your next event in style and comfort! Its regular-duty design is ideal for frequent use and transport, making this tent a great choice for weekly farmer's markets, non-profit events, community fairs, small business pop-up shops, and school events. The top fits snugly over the frame for a seamless look and easy setup.

Designed for convenience, durability, and safety, the sturdy 100% 150D polyester canopy is built to last and offers reliable protection. Its water-resistant fabric protects your guests, equipment, and employees during light to moderate rain. For added safety and security, it's also fire-resistant (CPAI-84) and features a UV-resistant coating to guard against harmful UV rays. Perfect for outdoor events, it provides up to 100 sq. ft. of shade beneath the 10' x 10' canopy. The powder-coated steel frame and eye-catching blue canopy top combine to ensure longevity and optimum visibility, near or far.

This Backyard Pro canopy features a rising truss ceiling system that combines the benefits of the full truss system's strength with reinforced truss bars, offering additional headroom similar to a cathedral-style frame. The steel frame is durable and built to withstand frequent use. Plus, the 4-legged design ensures stability and safety for staff and guests alike.

For added convenience, this canopy is simple to set up; it only takes a few minutes with the work of two employees to complete, saving time and labor during event preparation! Set the frame on its feet. Begin pulling the legs out while still keeping the top of the frame at an easily reachable level. Once the frame is partly expanded, add the cover on top with each corner fitting over a leg. Continue to pull the legs in opposite directions until they're out as far as they will go and lock into place. Finally, raise the height of each leg by lifting the upper portion, stopping when each leg locks into place. Tear down is just as easy. Remove the top, adjust the legs back to their lowest height, disengage each corner's locking button, and gently push together until the frame is once again folded fully.
