### Stainless Steel & All-Welded Construction For Years Of Service Life

- Choose the type of shelf that best fits your needs:
  - 3 edges up, 1 down to help hold items on the shelves during transport.
  - All shelf edges down for easy loading and unloading from all sides
- Easy to clean and sanitize
- Extended perimeter bumper for added protection
- Extra load 8" casters provide a smooth, easy transport
- 1000 lb. (450 kg.) capacity is ideal for continuous heavy transport of heavy loads over a variety of floor surfaces

**NSF**

### Specifications

Unit is of all-welded stainless steel construction, with a total carrying capacity of 1000 lb. (450 kg). Shelves are 18-gauge stainless steel with hemmed edges on all four sides for extra strength. Leg/frame assembly is 14-gauge .120 x 1" x 1" stainless steel angle in U-frame design, eliminating the need for corner reinforcements. Casters are extra-load plate type, two each swivel and two each fixed, and are fastened to frame and cross member. Swivel casters feature double race, double ball bearing swivel design. Caster wheels are 8" (203 mm) diameter with non-marking polyurethane tread and roller bearing hub for easy movement under heavy loads. Cross members shall be 18-gauge stainless steel with galvanized steel reinforcement. Unit features a vinyl perimeter bumper extended from frame to protect walls and doors, and tubular push handle on both ends. Unit is NSF listed.

**3 and 4 Shelf Models Only:** Shelves are joined to legs with continuous weld for extra strength.

**70" Long Shelf Models Only:** Shelves are reinforced on long sides with 14-gauge 1" x 1" stainless steel angle welded under the shelf edges.
